

Instructions for Posting Homework to Your Class Spreadsheet

- 1) Create a folder in **your** google drive called “AP Calculus Homework” (**NOT** the shared class drive where the class spreadsheet is stored). Share this folder with me

$\frac{\pm\sqrt{b^2-4ac}}{2a}$ Joseph Novak
jnovak@nazarethasd.org

- 2) After homework is complete, create a digital image(if you are doing them digitally just title it and save it to your personal homework folder) using your smartphone, a scanner, etc. Title the assignment and save it in your personal homework folder.

- 3) **Share your homework with me!**

$\frac{\pm\sqrt{b^2-4ac}}{2a}$ Joseph Novak
jnovak@nazarethasd.org

Note: Please UNCHECK “notify people” ☐ Notify people **as I do not need an email from each student letting me know a document was shared with me!**

- 4) Click the “Copy link” button.

[Copy link](#)

- 5) Type “Complete” in the class homework document and link the address for the file of your homework you just copied.
